

Single Hydrant Gate Valve

The Right Connection®

The Right Connection when it comes to fire related products.

Application:

- The hydrant gate valve is used to throttle the flow from a fire hydrant without damaging the hydrant itself.

Features:

- Also used on standpipes, and fire pumps where UL Listing is required
- Pin lug swivel, non-rising stem, red handwheel
- Cast Red brass
- O-ring seal
- **U/L listed**
- For use up to **175 PSI** (water only)
