

Rexnord® TableTop® and MatTop® Chains

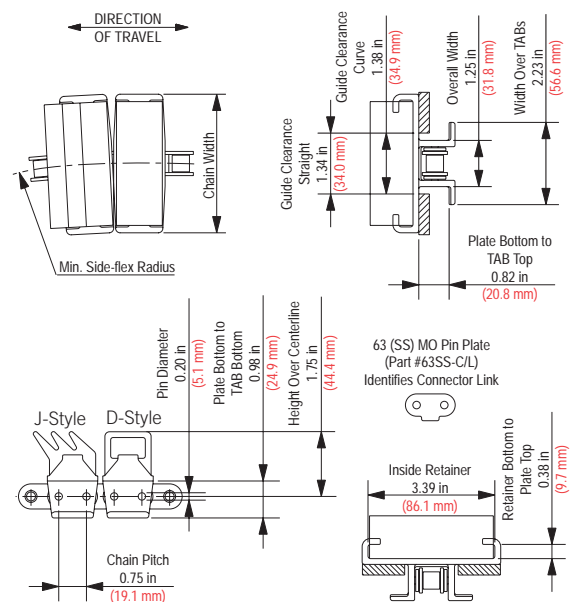

1873 TableTop® Chain

Line speeds have almost doubled in the past few years — Can your existing chains handle these high speeds? New Rexnord® Platinum Series® SideGrip™ chains can handle these speeds with ease! The next generation of SideGrip chains for ionized air or water rinser applications is here! Rinser applications are very demanding due to the high speeds and loads. The new PS® top plate material is specially formulated to handle these high speeds. The PS material, combined with a new and improved #63 stainless steel roller chain lubricated with an

FDA approved oil, greatly increases overall chain life and performance. Contact Rexnord for an updated maintenance manual to help improve your SideGrip chain life. Let our engineering department perform a free SideGrip chain analysis. Contact Application Engineering for this service & design manual.

Features & Benefits

- PS® material has high speed dry running capabilities: 1000 FPM (300 MPM) straight running, 500 FPM (150 MPM) side-flexing
- Chain lube is FDA approved for food applications
- PS1873SSL can easily be installed in existing LF1873 & HP1873 systems. No adjustments or changes are required
- Runs on standard ANSI #60 sprockets
- Ideal for: ionized air rinsers, water rinsers, elevators, lowerators
- Part numbers are:
 - PS1873SSL-GD (with D grippers)
 - PS1873SSL-GJ (with Jaw grippers)
 - PS1873SSL-G (without grippers)
- Updated SideGrip™ chain maintenance manual is available (8rxSGdm-en)
- Free chain analysis - Return a sample of base chain, top plates and grippers and we will: evaluate your chain, give estimate of current chain life, provide recommendations on improving chain life
- Contact Application Engineering for more details 262.376.4800
