### TIGEAR-2

#### RISER BLOCK KITS

Riser blocks allow clearance over the motor eliminating the need to invert the reducer (worm under) when the application calls for a “ceiling” mount such as under a conveyor or other equipment. Riser blocks permit the reducer to be mounted in the most desirable position keeping the high speed shaft seal above the oil level. Experience shows that this position results in increased seal life and durability. Each kit includes the riser block and required mounting hardware.

Case Size	Kit No.	A	B
13	<b>13RISER</b>	1.66	5.36
15	<b>15RISER</b>	1.38	5.61
17	<b>17RISER</b>	1.38	5.99
20	<b>20RISER</b>	1.38	6.24
23	<b>23RISER</b>	2.25	7.88
26	<b>26RISER</b>	1.91	8.21
30	<b>30RISER</b>	2.25	8.63
35	<b>35RISER</b>	1.69	9.27
40	<b>40RISER</b>	2.75	10.83
47	<b>47RISER</b>	2.00	11.57
