- Powered by 3 AAA Batteries (Included)

PRIMARY LIGHTING MODE

• 100% LIGHT - 250 LUMENS

Click the Rear Button 1 time for 250 Lumens of white light. (LED Bulb 110,000-plus hour life)
(4 hour run time / Viewing distance 175 yards)

SECONDARY LIGHTING MODES

Press and hold button for 3 seconds to activate secondary lighting modes.

• 50% LIGHT - 125 LUMENS

Press and hold button for 3 seconds for 125 Lumens of white light. (8 hour run time / Viewing distance 65 yards)

• 10% LIGHT - 25 LUMENS

From the previous mode, click button 1x for 25 Lumens of white light. (15 hour run time / Viewing distance 30 yards)

• S.O.S. MODE

From the previous mode, click button 1x to activate the S.O.S. Sequence. (250 Lumens)
(72 hour run time) (Viewing distance 175 yards)

• DEFENSIVE STROBE

From the previous mode, click button 1x to activate the Defensive Strobe Mode. (250 Lumens)
(72 hour run time) (Viewing distance 175 yards)

• AGGRESSIVE SELF-DEFENSE FACE

The aggressive design face can be used to defend yourself. (Please use caution when using flashlight.)

• CONVEX LENS

The convex lens evenly distributes the light for a highly concentrated beam without dull or dark spots.

USER INSTRUCTIONS

Each SE REDLINE® flashlight has helpful information printed on the side. Lighting modes, lumen ratings, run time and beam distance are listed.

• RED RING

This signature red ring enhances each of the different lighting modes.

Spot light (175 yards)

Flood light (30 yards)

HEAT-SINK BEZEL DESIGN

Integrated heat-sinking rings are used to disperse heat from bezel during extended periods of use.

4X ADJUSTABLE BEAM

Turn the bezel clockwise for flood light, perfect for short range lighting. Turn the bezel counter clockwise for spot light, perfect for focusing light over 20 yards.

STEEL CLIP

Allows you to keep this flashlight handy and provide hands-free lighting.

ANODIZED AIRCRAFT GRADE ALUMINUM WATER-RESISTANT COMPACT BODY DESIGN

Designed to fit almost anywhere, the body is virtually indestructible to ensure reliability.

REAR GLOW-IN-THE-DARK BUTTON WITH BATTERY INDICATOR

This button gives you the power to easily switch functions while maintaining constant control of the flashlight. Button activates primary and secondary lighting modes. Button will also glow red when battery life is less than 20%.

POWERFUL MAGNETIC BASE

Allows you to attach product to virtually all metal surfaces, giving you hands-free lighting. Magnetic base also helps in retrieving metal objects in a tight space.
