

WMCTTB30T -- Signal-Quick- Well Mounts, 30mm

Well Mounts adapt tubular proximity sensors to a wide variety of vessels for level detection applications. Keep systems sealed prior to sensor installation, as well as during sensor removal. Reliability and performance is improved because the sensor is isolated from the system fluids/materials.

Product Specifications

Product Type	 <p>Signal-Quick Sensor Mounting</p>
System Components	Well Mounts
Size	30mm
Component Style	CTTB Teflon
Component Material	Teflon Ø
Flange Style	UHMW-PE (body), Stainless Steel Band Clamps, Neoprene O-Ring.
Max Allowable PSI:	120
Product Description	Signal-Quick is a full line of sensor mounting innovations designed to save design, manufacturing and maintenance costs. Industrial sensor mounts are costly and time consuming to fabricate. When subjected to harsh industrial environments, sensor mounts ca
